HOT PIPE COATING™

REFERENCE

CUSTOMER: HEINZ GROUP
PRODUCTS: HOT PIPE COATING
MARKET: INDUSTRY & MANUFACTURING
COUNTRY: POLAND

PROJECT DESCRIPTION

Two sterilizers (for food in cans) as part of the production line needed to be insulated in order to reduce the exterior temperature and reduce loss of energy. Inside temperature fluctuated but surface temperature is max. +135°C

COATING SOLUTION

HOT PIPE COATING was applied between 5mm-7mm to bring the entire installation down to approximately +60°C.

RESULTS
