

OFFICE ROOF

Existing coating was applied in 2007 10 Mils
DFT **SUPERTHERM**® over HLM 5000 no maintenance has
been performed since.
(no clean up of debris on the roof)

July 2012
Roof Maintenance

First we cleaned the surface of the roof to a clean, dry and
sound condition ready to accept a new coating system.

An additional 8 mils WFT = 5 mils DFT of **SUPERTHERM**® was added over the whole roof.

**Pre Striped then applied first coat of SP LIQUID
MEMBRANE® at 8 mils WFT**

applied Second Coat cross hatched of **SP LIQUID**
MEMBRANE ® at 6 mils WFT for a total of 14 mils WFT = 6 mils
DFT
